

For Norma Berkowitz

Dear Norma,

On behalf of the Kyiv-Svyatoshin Chernobyl Center for Psychosocial Rehabilitation we would like to express our heartfelt thanks to you for the many years of fruitful cooperation. Under your leadership FOCCUS has become an integral part of our life. Thank you very much for understanding the specifics of our work and of the complex political, social and economic problems that are part of the young independent Ukraine's identity. All these years we have witnessed the titanic efforts that FOCCUS members, and you personally, had to apply in order to foster partnerships and raise funds for our successful work.

We have always admired your energy and the desire to work for those in need of help. We hope that you will remain a Board member for a long time, working to benefit those who suffered as a result of the Chernobyl catastrophe. We love you very much and highly value everything that FOCCUS and you personally did for the people who fell victims to one of the worst catastrophes of our time.
